SUMMARY

Aspiring Software Engineer with hands-on experience developing backend applications using Java, Spring Boot, REST APIs, and Microservices. Built scalable applications including a Stripe Payment Integration System and business applications using Zoho Creator and Zoho CRM during internships. Strong foundation in Object-Oriented Programming, Data Structures & Algorithms, SQL, and software engineering principles. Passionate about building reliable, production-ready software and solving complex engineering problems.

EXPERIENCE

Low Code Developer Intern — Zappyworks Pvt. Ltd | Oct 2025 – Feb 2026

- Built internal business applications using Zoho Creator. Integrated applications with Zoho CRM. Automated workflows using Deluge scripting.
- Improved operational efficiency through business process automation. Worked with cross-functional teams to deliver business solutions.
- Integrated applications with Zoho CRM for customer data management. Implemented Deluge scripts to automate internal business processes.

Java Developer Trainee — HulkHire Tech | Aug 2025 – Sep 2025

- Built Contributed to building a secure and scalable Stripe Payment Integration System using Java Spring Boot in a microservices architecture.
- Participated in implementing payment processing, payment status management, Stripe PSP REST API integration and notification handling.
- Implemented payment status tracking, to ensure 100% reliability of payments. Worked with Git, Bitbucket, Jira, and Agile development practices.

TECHNICAL SKILLS

Programming: Java, Python, HTML, CSS.

Frameworks: Spring Boot, Spring Boot JDBC, Bootstrap.

Backend: Basics of (REST API Development, Microservices, ActiveMQ), Stripe API

Databases: MySQL, SQLite

Tools: Git, Bitbucket, Jira, Postman, IntelliJ IDEA.

Concepts: Object-Oriented Programming, Data Structures & Algorithms, Multithreading

Basics, Exception Handling, Design Patterns, Microservices Architecture, Agile

Methodology, Unit Testing, Debugging, API Development

Zoho Platform: Zoho Creator and Zoho CRM

PROJECTS

Stripe Payment Integration System

- Built a secure and scalable Stripe payment integration system using Spring Boot in a microservices architecture. Applied object-oriented design and clean architecture.
- Implemented payment processing, status tracking, and Stripe API integration (session creation, retrieval, expiration). Implemented Circuit Breaker for fault tolerance.
- Developed asynchronous notification handling using ActiveMQ and applied security mechanisms including Basic Authentication and HmacSHA256 for webhook validation.

EDUCATION

B.E Mechanical Engineering

Government College of Engineering, Salem | 2021 – 2025

CGPA: 8.0

Higher Secondary | Dhanalakshmi Srinivasan Higher Secondary School, Perambalur
2019–2021 | 87%

ADDITIONAL INFORMATION

- Understanding of Data Structures & Algorithms
- Object-Oriented Programming
- RESTful API Development
- Microservices Architecture
- Problem Solving
- Software Development Life Cycle
- Agile Development
- Git Version Control

CERTIFICATIONS

- Web Application Development (Zoho Creator & Zoho CRM) — Zappyworks Software Solutions Pvt. Ltd.
- Java, Spring Boot, Microservices, REST API — HulkHire Tech
- HTML, CSS, JavaScript, Python, SQL — NXT Wave
